Results of Operations

The Group incurred a loss after income tax of \$6,856,761 for the year ended 30 June 2024 (2023: \$8,217,557) which reflects the research and development activity during the year. Highlights were as follows:

- **ColoSTAT® Automation project with Nutripath and Tecan completed;**
- **Platform expansion – initial outcomes in Breast and Lung Cancer positive;**
- **1st Tranche of R&D Tax Incentive received, new secondary submission underway;**
- **Manuscript for ColoSTAT® clinical performance study submitted.**
- **Internationally Renowned Clinically Advisory Board Established, with initial meeting held;**
- **The current patent review and renewals of ColoSTAT® in preferred markets, will lengthen patent protection by more than a decade to early 2042;**
- **Phase 1 for ColoSTAT® update with U.S. based Contract Manufacturing Organisation (CMO) complete;**
- **Board's Unanimous Recommendation supported in Extraordinary General Meeting (EGM);**
- **Maintained ISO 13485:2016 Certification;**
- **Appointment of Dr David Atkins as new Chief Executive Officer;**
- **Significant progress made on re-engineering ColoSTAT® assay into a simpler, higher quality multiplex antibody assay;**
- **Update of clinical strategy to include the indication of triage for patients symptomatic for bowel disease and with higher-than-average risk of colon cancer; and**
- **Significant upgrade of quality systems with migration to eQMS and strengthening of team to ensure consistent quality.**

Significant Changes in the State of Affairs

During the year the Company issued:

- 27,454,161 shares at 10 cents each from a rights issue and subsequent shortfall placement, raising \$2,745,416; and
- 1,350,000 shares at 20 cents each from the exercise of options raising \$270,000.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

After Balance Date Events

On 14 August 2024, the Company announced on the ASX it entered into a secured loan facility agreement (Loan) which will provide early access to \$1,150,000 cash of its forecast ~\$1,500,000 FY24 R&D Tax Incentive (RDTI Rebate) expected to be received in full by November 2024.

The Loan is secured by and repayable out of the FY24 RDTI Rebate and attracts a fixed 1.33% per month interest rate. It matures on 31 December 2024, however, can be extended by agreement between the lender and Rhythm. This Loan is intended to be used in a bridging period prior to receiving the FY24 RDTI Rebate, along with the amended FY23 RDTI rebate for overseas activities.

There has been no other matters or circumstances which have arisen since 30 June 2024 that has significantly affected or may significantly affect:

- the operations, in financial years subsequent to 30 June 2024, of the consolidated entity; or
- the results of those operations; or
- the state of affairs, in financial years subsequent to 30 June 2024, of the consolidated entity.

RHYTHM BIOSCIENCES LIMITED
DIRECTORS' REPORT
FOR THE YEAR ENDED 30 JUNE 2024

Future Developments

The Directors do not foresee any unusual future event that may significantly negatively impact the Group's operations, results or state of affairs. Rhythm's business model of developing diagnostic products for global markets will always bear some risk given the nature of technological development, competitors entering the market, changes in global healthcare, reliance on commercial partners and our ability to access capital to sustain operations. We cannot guarantee that Rhythm's technology will be widely adopted. Moreover, the global Healthcare industry is an ever-evolving landscape where changes may impact our business opportunities.

Internal Risks:

Most risks associated with personnel are limited due to the extensive use of external consultants and outsourced agencies. Our people risks were inherently our largest obstacle in the 2024 financial year which we have overcome with the training and diversification of knowledge. Cash Flow is identified as a potential risk despite the minimisation with the R&D grant expected. The management and Board have identified that Cash Flow will not be an immediate impediment to the growth of the company.

The financial statements as at 30 June 2024 have been prepared on a going concern basis for the following reasons:

- as at 30 June 2024, the consolidated entity had a cash position of \$709,496;
- a research and development refund for FY24, based on expenditure incurred, is expected to be received in full by November 2024. A secured loan obtained for \$1,150,000 in August 2024 has provided early access to this forecast research and development refund. A resubmitted research and development claim for FY23 for overseas activities is also expected to be lodged in the near term;
- activities are focused on commercialising ColoSTAT® in various geographies;
- the Company has the potential to raise additional capital from potential investors and debt type funding from financiers. The Directors are confident in the Company's ability to raise additional capital based on the Company's successful track record in doing so. Management has commenced activities in preparation for additional funding including initial meetings with third parties;
- the consolidated entity is still in the early stages of operations and is able to scale back activity if required for cashflow management purposes; and
- the forecast cash flows for the consolidated entity indicate that based on current cash on hand and expected inflows from research and development refunds and additional capital to be raised from investors, the consolidated entity is expected to maintain a positive cash position for at least the period of 12 months from the date the Directors approve the annual financial statements.

Whilst the Directors are confident in the consolidated entity's ability to continue as a going concern, in the event that cash flow forecasts are adversely impacted, and cash inflows described above do not eventuate as planned, there is a material uncertainty as to whether the consolidated entity will be able to execute alternative funding arrangements.

External Risks:

The major external risks are supply chain of raw materials and global demand. With the current suppliers of raw materials and the proprietary recipe / algorithm, the raw material supply is adequate to ensure material supply to current and future target markets. It is anticipated that Rhythm will expand its CMO (Contract Manufacturers) globally.

Environmental Issues

Rhythm's operations are subject to certain environmental regulations under the laws of the Commonwealth and State. The Directors are not aware of any breaches during the period covered by this report.

Dividends

No dividends were paid or declared since the start of the financial year. No recommendation for payment has been made.

 DIRECTORS' REPORT
 FOR THE YEAR ENDED 30 JUNE 2024

Remuneration Policy

The aim of the Company's remuneration policy is to align the interests of directors and employees with those of shareholders. To do this Rhythm sets remuneration levels that attract and retain highly skilled and experienced directors and employees; and motivates and rewards performance that advances the Company's strategic goals.

Remuneration Structure

The remuneration of Key Management Personnel and employees is structured in two parts:

- Fixed Remuneration, comprising: base salary, superannuation and other benefits in lieu of salary; and
- Variable Remuneration, may include: a short-term incentive bonus (cash) and a long-term incentive in the form of options under the ESOP or loan funded shares.

The Company aims to set the level of fixed remuneration at market levels for comparable jobs, in similarly structured and sized companies in the industry in which the Company operates. No advice from a remuneration consultant was sought during the financial year.

Short-Term Incentive Plan

The short-term incentive plan provides an incentive to employees to achieve an annual cash bonus on the achievement of corporate goals set at the beginning of each calendar year. These corporate goals are clearly defined, drive shareholder value and can be objectively measured. The percentage of an employee's base salary that can be earned through the Short-Term Incentive Plan (STIP) is set by the Board for management personnel. At the end of the calendar year the Board assesses the level of achievement of these corporate goals. Payments made pursuant to the STIP are at the discretion of the Board.

Long-Term Incentive Plan

The purpose of the long-term incentive plan is to align the interests of directors, management personnel and employees with those of the shareholders and provide reward for sustained achievement of the Group's strategic objectives. Rhythm's long-term incentive plan is implemented through the Employee Share Option Plan (ESOP) or loan funded shares.

Options

During the 2024 year, 4,200,000 (2023: 10,950,000) Options were issued to management personnel and employees. The fair value of employee share options was \$132,000 (2023: \$5,812,500). \$1,067,744 was reversed in the current financial year (2023: \$3,003,935 expensed) for options issued in the current and previous years. In addition, \$19,726 was expensed in the current financial year (2023: \$nil) for loan funded shares. The options were issued for nil consideration and granted in accordance with performance guidelines established by the Board.

The following ESOP Share Options arrangements existed at 30 June 2024:

Non-Executive Director Remuneration

The Board considers the level of remuneration necessary to attract and retain Directors with the skills and experience required by the Company at its stage of development. Non-executive Directors fees are paid within an aggregate limit which is approved by the shareholders from time to time. No retirement payments are made to Non-executive Directors.

Non-executive Directors' fees were set at \$52,500 per annum inclusive of superannuation. The Company entered into an executive services agreement effective 1 July 2022 for Mr Otto Buttula to receive an annual salary of \$165,000 (exclusive of superannuation). Effective 31 May 2024, Mr Buttula reverted to the role of Non-Executive Chairman on an annual salary of \$105,000 (exclusive of superannuation). Ms MacLeman receives a salary of \$82,500 (inclusive of superannuation) per annum for her role as Deputy Chairman. 200,000 Options exercisable at \$1.80 on or before 30 November 2025 were issued to Ms MacLeman under the ESOP during the 2024 financial year. The Company entered into a revised consulting services agreement effective 1 July 2022 for Dr Trevor Lockett to receive an annual salary of \$159,500 (inclusive of superannuation). Dr Lockett ceased his executive role on 15 December 2023 and continues as a Non-Executive Director.

RHYTHM BIOSCIENCES LIMITED
DIRECTORS' REPORT
FOR THE YEAR ENDED 30 JUNE 2024

Key Management Personnel Remuneration

Key Terms of the CEO's employment contract

The Company entered into an executive services agreement effective 13 May 2024 for Dr David Atkins as Chief Executive Officer (CEO). Dr Atkins annual remuneration consists of a fixed base remuneration of \$350,000 (exclusive of superannuation) per annum. In addition to his base, he is eligible to participate in:

- (i) up to 30% of that fixed base remuneration as a short-term incentive; and
- (ii) up to 20% of that fixed base remuneration as a long-term incentive - as described below.

Execution Equity Incentive (EEI)

Dr Atkins remuneration also includes awarded 'signing on' incentives:

- (i) 4,000,000 Loan Funded Shares at \$0.10 (4 year non-recourse loan at 0% interest rate);
- (ii) 2,000,000 Options, exercisable at \$0.20 (unlisted, expiry of 31 March 2026); and
- (iii) 2,000,000 Options, exercisable at \$0.30 (unlisted, expiry of 31 March 2026 and 31 March 2028).

Short-term incentive (STI)

Dr Atkins is entitled in addition to his fixed income (FI) to a target short-term incentive with a maximum opportunity capped at 30% of FI. Payment of any STI will be subject to the financial and non-financial performance of the Group, Dr Atkins performance against performance targets and priorities set by the Board in consultation with Dr Atkins, the rules of the short-term incentive plan and relevant market information.

Short-term incentive awards are treated as follows:

- (i) 50% will be paid in cash; and
- (ii) 50% will be deferred for two years in equity (on the terms of the Company's Omnibus Employee Incentive Plan).

Dividends, if any, will be paid on short-term equity (issued shares) incentives.

Unless the Board determines otherwise, Dr Atkins will forfeit any deferred short-term incentive if his employment ceases due to death, retirement, hardship, redundancy or other reason determined by the Board from time to time.

Long-term incentive (LTI)

Subject to any approval Rhythm considers necessary or appropriate, Dr Atkins will be entitled to participate in the Rhythm's Omnibus Employee Incentive Plan a long-term incentive scheme in accordance with the rules of the scheme and any applicable Rhythm policy. Dr Atkins will be entitled to an annual long-term incentive grant up to 20% of his FI. This is a four-year performance period. The number of equity incentive rights (66.67% Loan Funded Shares and 33.33% 3-year unlisted options) granted will be determined using Rhythm's share price (face value).

Dividends, if any, will be paid on long-term equity (issued shares) incentives.

If at any time approval of Dr Atkins participation in the Rhythm's Omnibus Employee Incentive Plan is sought but not obtained, he will be entitled to receive a cash payment equivalent in value to the long-term incentive that would have been granted had shareholder approval been obtained, subject to the same performance hurdles and timing for vesting (payment).

Dr Atkins will forfeit any cash long-term incentive if his employment is terminated by his resignation (unless approved by Rhythm or due to his death or illness), due to his misconduct, or if Rhythm determines that such action is necessary to protect the financial soundness of Rhythm or where adverse outcomes have arisen that reduce the original assessment of the performance generating the provision of the benefit.

If Dr Atkins employment is terminated by the provision of notice by Rhythm or by the provision of notice by Dr Atkins with Rhythm approval or due to his death or illness, at Rhythm's discretion he will forfeit either all or a pro rata portion of the cash long-term incentive taking into account his employment period as a portion of the performance period for the incentive.

Clawback Policy

Rhythm retains discretion to clawback some or all of any short or long term incentive awarded to Dr Atkins (if not already paid or vested) if Rhythm considers such award(s) would be an inappropriate benefit pursuant to the Rhythm Clawback Policy.

Termination

Rhythm may terminate Dr Atkins employment at any time on three months' notice or payment in lieu of notice. Dr Atkins may terminate his employment with Rhythm at any time on three months' notice or, at Rhythm's election, payment in lieu of notice. Dr Atkins employment may also be summarily terminated (without notice) by Rhythm in circumstances of his misconduct or long-term illness.

Restrictive covenant

Dr Atkins will be restrained for up to six months after termination of his employment with Rhythm from being engaged in competition with Rhythm, and from soliciting Rhythm employees or persuading people who do business with Rhythm to cease or reduce their business with Rhythm.

Key Terms of the former CFO's employment contract

The Company entered into an executive services agreement effective 17 October 2022 for Mr Paul Smith as Chief Financial Officer (CFO) and Company Secretary to receive an annual salary of \$265,000 (exclusive of superannuation). The Company also issued Mr Smith 2,000,000 unlisted Options exercisable at \$1.80 on or before 31 December 2025. Refer to Note 17 for details on Options vesting conditions. Mr Smith was also entitled to receive short-term incentives dependent upon performance, as assessed against key performance indicators. Mr Smith resigned effective 15 November 2023.

RHYTHM BIOSCIENCES LIMITED
DIRECTORS' REPORT
FOR THE YEAR ENDED 30 JUNE 2024

Proceedings on Behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

Indemnity and insurance of officers

The Company has paid a premium for Directors' and Officers' Liability (Management Liability) Insurance.

Under the Company's constitution:

- i. To the extent permitted by law and subject to the restrictions in sections 199A and 199B of the Corporations Act 2001, the Company indemnifies every person who is or has been an officer of the Company against any liability (other than for legal costs) incurred by that person as an officer of the Company.
- ii. To the extent permitted by law and subject to the restrictions in sections 199A and 199B of the Corporations Act 2001, the Company indemnifies every person who is or has been an officer of the Company against reasonable legal costs incurred in defending an action for a liability incurred by that person as an officer of the Company.

The Company insures its Directors, Company Secretary, and executive officers under a Management Liability Insurance policy. Under the Company's Management Liability Insurance Policy, the Company cannot release to any third party or otherwise publish details of the nature of the liabilities insured by the policy or the amount of the premium. Accordingly, the Company relies on section 300(9) of the Corporations Act 2001 to exempt it from the requirement to disclose the nature of the liability insured against and the premium amount of the relevant policy.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor. During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under s307C of the Corporations Act 2001 is set out on page 16.

Non-Audit Services

BDO Audit Pty Ltd were paid \$13,100 (2023: \$25,280) for non-audit services during the 2024 financial year. Non-audit services related to tax compliance services.

The directors are satisfied that the provision of non-audit services during the financial year, by the auditor, is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants (including Independence Standards) issued by the Accounting Professional and Ethical Standards Board, including reviewing, or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

There are no officers of the company who are former directors of BDO Audit Pty Ltd.

This report is made in accordance with a resolution of the Directors.

RHYTHM BIOSCIENCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 30 JUNE 2024

Note 1: Material Accounting Policy Information

The consolidated financial statements and notes represent those of Rhythm Biosciences Limited and Controlled Entities (the 'consolidated entity' or 'Group'). The separate financial statements of the parent entity, Rhythm Biosciences Limited ('the Company'), have not been presented within this financial report as permitted by amendments made to the Corporations Act 2001. The financial report covers the economic entities of Rhythm Biosciences Limited and its controlled entities as an economic entity for the year ended 30 June 2024. Comparatives are disclosed for the year ended 30 June 2024.

The financial statements are presented in Australian dollars, which is the Group's functional and presentation currency. The financial statements were authorised for issue on the date of the approval of the Directors' declaration by the Directors of the Company.

Statement of Compliance

These financial statements are general purpose financial statements which have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations, and comply with other requirements of the law. The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity. Compliance with Australian Accounting Standards ensures that the financial statements and notes of the Company and the Group comply with International Financial Reporting Standards ('IFRS').

Basis of Preparation

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated. The financial report has been prepared on an accruals basis and is based on historical costs.

Going Concern

The consolidated entity incurred an operating loss of \$6,856,761 (2023: \$8,217,557) and had cash outflows from operating activities of \$6,137,171 (2023: \$6,957,610) for the year ended 30 June 2024. The consolidated entity is in start-up phase and does not yet have an income stream. These conditions indicate a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern.

The financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the normal course of business for the following reasons:

- as at 30 June 2024, the consolidated entity had a cash position of \$709,496;
- a research and development refund for FY24, based on expenditure incurred, is expected to be received in full by November 2024. A secured loan obtained for \$1,150,000 in August 2024 has provided early access to this forecast research and development refund. A resubmitted research and development claim for FY23 for overseas activities is also expected to be lodged in the near term;
- activities are focused on commercialising ColoSTAT® in various geographies;
- the Company has the potential to raise additional capital from potential investors and debt type funding from financiers. The Directors are confident in the Company's ability to raise additional capital based on the Company's successful track record in doing so. Management has commenced activities in preparation for additional funding including initial meetings with third parties;
- the consolidated entity is still in the early stages of operations and is able to scale back activity if required for cashflow management purposes; and
- the forecast cash flows for the consolidated entity indicate that based on current cash on hand and expected inflows from research and development refunds and additional capital to be raised from investors, the consolidated entity is expected to maintain a positive cash position for at least the period of 12 months from the date the Directors approve the annual financial statements.

Whilst the Directors are confident in the consolidated entity's ability to continue as a going concern, in the event that cash flow forecasts are adversely impacted, and cash inflows described above do not eventuate as planned, there is a material uncertainty as to whether the consolidated entity will be able to execute alternative funding arrangements to enable it to continue as a going concern beyond the 12 months from the date the Directors approve the annual financial statements.

Consequently, a material uncertainty exists as to whether the consolidated entity will continue as a going concern and it may therefore be required to realise its assets at amounts different to their carrying amounts. In the consolidated statement of financial position, extinguish liabilities at amounts different to those recorded in the consolidated statement of financial position and settle liabilities other than in the ordinary course of business.

RHYTHM BIOSCIENCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AS AT 30 JUNE 2024

Note 1: Material Accounting Policy Information (Continued)

Revenue Recognition

Interest income is recognised as it accrues, taking into account the effective yield on the financial asset.

Government stimulus and research and development tax refund Income is recognised when there is reasonable assurance that the eligibility conditions are met and that the grants will be received.

Inventories

Raw materials, work in progress and finished goods are stated at the lower of cost and net realisable value on a 'weighted average' basis. Cost comprises of direct materials and delivery costs, direct labour, import duties and other taxes. Costs of purchased inventory are determined after deducting rebates and discounts received or receivable.

Stock in transit is stated at the lower of cost and net realisable value. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

At 30 June 2024, the Group leased office premises at Bio21 Institute, 30 Flemington Road, Parkville, Victoria with an expiry date of 31 May 2025 and has an option to renew for a further one year. The lease liability includes the extension option. The undiscounted payments due less than one year are \$97,699 and between one to two years are \$92,014. Non-cash additions to right-of-use assets in 2024 were \$171,943.

Property, Plant and Equipment

Each class of plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment.

Plant & Equipment

The carrying amount of plant and equipment is reviewed annually by the Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets, including capitalised lease assets, is depreciated on a straight-line basis over their useful lives to the Group commencing from the time the asset is held ready for use. Items of property, plant and equipment, are depreciated over their estimated useful lives.

Note 1: Material Accounting Policy Information (Continued)

Depreciation (continued)

The depreciation rates for each class of asset are:

Class of Non-Current Asset	Depreciation Rate	Estimated Useful Lives
Office Equipment	10%	10 years
Computer Equipment	33.3%	3 years
Laboratory Equipment	33.3%	3 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each end of reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Intangibles

Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Product development costs are capitalised only when each of the following specific criteria has been satisfied:

- i. Technical feasibility of completing development of the product and obtaining approval by regulatory authorities.
- ii. Ability to secure a commercial partner for the product.
- iii. Availability of adequate technical, financial and other resources to complete development of the product, obtain regulatory approval and secure a commercial partner.
- iv. Reliable measurement of expenditure attributable to the product during its development.
- v. High probability of the product entering a major diagnostic market.

Capitalised development costs have a finite life and are amortised on a systematic basis over the period from when the product becomes available for use and ceases at the earlier of the date the asset is expected to exit the market or that the asset is classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with AASB 5.

Other intangible assets

Other intangible assets comprise licences and are stated at cost less accumulated amortisation and impairment losses.

Employee Entitlements

Short-term and long-term employee benefits

A liability is recognised for benefits accruing to employees for wages and salaries and annual leave in the year the related service is rendered. Liabilities recognised in respect of short-term employee benefits are measured at their nominal values using the remuneration rate expected to apply at the time of settlement. Liabilities recognised in respect of long-term employee benefits are measured as the present value of the estimated future cash outflows to be made by the Group in respect of services provided by employees up to reporting date. Contributions are made by the Group to employee superannuation funds and are charged as expenses when incurred.

Share-based compensation

Equity-settled and cash-settled share-based compensation benefits are provided to employees. Equity-settled transactions are awards of shares, or options over shares including loan funded shares that meet the criteria of options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

Note 1: Material Accounting Policy Information (Continued)

Employee Entitlements (continued)

Share-based compensation (continued)

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing or models that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore, any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Financial Instruments

Recognition

Financial instruments are initially measured at fair value on transaction date, plus or minus transaction costs directly attributable to the acquisition. Subsequent to initial recognition these instruments are measured as set out below.

Financial assets

Cash balances are recognised at amortised cost using the effective interest rate method.

Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation. Lease liabilities have been recorded adopting an Incremental borrowing rate of 15% (2023: 4.99%).

Note 1: Material Accounting Policy Information (Continued)

Impairment

An 'expected credit loss' ('ECL') model is used to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted.

Critical Accounting Estimates and Judgments

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key Estimates

Share-based payments

Rhythm operates an Employee Share Option Plan (ESOP). The non-cash expense of issuing these options is calculated using a Black-Scholes option pricing model. This model requires the input of a number of variables including an estimate of future volatility and a risk-free interest rate. The probability of meeting any vesting conditions is also required to be estimated. Refer to Note 17 to the financial statements.

Research and Development Tax Refund Income

Research and development tax refund income is recognised when there is reasonable assurance that the eligibility conditions are met and that the grants will be received. Significant judgement is required in determining the income tax refund eligibility. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The amounts recorded as revenue for the financial years ended 30 June 2024 and 2023 relate to tax refunds received in the same financial year following tax returns lodged claiming eligible expenditure incurred in the previous financial year.

Estimated Useful Lives of Other Intangible Assets

Other intangible assets comprise licences and are stated at cost less accumulated amortisation. Rhythm determines the estimated useful lives and related amortisation charges for its finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Provision for Impairment of Inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account expected future sales, the ageing of inventories and other factors that affect inventory obsolescence.

Adoption of New and Revised Accounting Standards

During the current year, the Group has adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

New Accounting Standards for Application in Future Periods

The Board has not yet assessed the impact of the new, but not yet mandatory, accounting standards issued by Australian Accounting Standards Board (AASB).

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. Ordinary shares have no par value and the company does not have a limited amount of authorised capital. On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents. In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The consolidated entity would look to raise capital when an opportunity to invest further into development and commercialisation or in a business seen as value adding relative to the current Company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The capital risk management policy remains unchanged from 30 June 2023.

** On 26 July 2021 when the share price was \$0.93, Directors resolved to issue these Options, subject to receipt of shareholder approval. On 24 November 2021, when the share price was \$1.74, shareholder approval occurred at the Annual General Meeting (AGM). The fair value for accounting purposes is determined based upon final approval at the date of the AGM.

*** Loan funded shares.

A share option plan has been established by the consolidated entity, whereby the consolidated entity may, at the discretion of the Board, grant options over ordinary shares in the Company to certain key management personnel of the consolidated entity. The options are issued for nil consideration and are granted in accordance with performance guidelines established by the Board. In addition, the Company has also issued loan funded shares pursuant to an employment agreement with the CEO.

All options granted are in respect of ordinary shares in Rhythm Biosciences Limited and confer a right of one ordinary share for each option held.

 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 AS AT 30 JUNE 2024

Note 18: Financial Risk Management

The Group's financial instruments consist mainly of term deposits with banks, other receivables and trade payables.

The totals for each category of financial instruments, measured in accordance with AASB 9 as detailed in the accounting policies to these financial statements, are as follows:

	Notes	2024 (\$)	2023 (\$)
FINANCIAL ASSETS			
Cash and cash equivalents		709,496	4,124,181
Trade and other receivables		37,199	65,513
Other financial assets – term deposits		45,000	45,000
		791,695	4,234,694
FINANCIAL LIABILITIES			
Trade and other Payables		459,709	1,522,843
		459,709	1,522,843

There are no impaired assets within trade and other receivables; these balances, and the balance of trade and other payables, are expected to be settled within 1 year.

Financial assets pledged as collateral

No financial assets have been pledged as security for any financial liability.

Financial Risk Management Policies

The Board are responsible for, among other issues, monitoring and managing financial risk exposures of the Group. The Board monitors the Group's transactions and reviews the effectiveness of controls relating to credit risk, liquidity risk, and market risk. Discussions on monitoring and managing financial risk exposures are held regularly by the Board. The Board's overall risk management strategy seeks to ensure that the Group meets its financial targets, while minimising potential adverse effects of cash flow shortfalls.

The Group did not have any derivative instruments at 30 June 2024.

Specific Financial Risk Exposures and Management

The main risk the Group is exposed to through its financial instruments is liquidity risk.

Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

Credit risk is managed through maintaining procedures ensuring, to the extent possible, that members and counterparties to transactions are of sound creditworthiness.

Credit risk exposures

Cash reserves form the majority of the Group's financial assets. At 30 June 2024, cash was deposited with a large Australian bank in order to limit risk and ensure interest rate competitiveness.

RHYTHM BIOSCIENCES LIMITED
 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 AS AT 30 JUNE 2024

Note 18: Financial Risk Management (continued)

Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- preparing forward-looking cash flow analysis in relation to its operational, investing and financing activities; and
- only investing surplus cash with major financial institutions.

Market risk

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. Exposure to interest rate risk arises on interest earned on cash and cash equivalents and term deposits.

The consolidated entity's cash and cash equivalents and term deposits were \$754,496 as at 30 June 2024 (2023: \$4,169,181). An official increase/decrease in interest rates of 100 (2023: 100) basis points would have an adverse/favourable effect on loss before tax of \$7,545 (2023: \$41,692) per annum. The percentage change is based on the expected volatility of interest rates using market data and analysts' forecasts.

Variable rate instruments were cash held at financial Instruments of \$709,496 (2023: \$4,124,181). Fixed rate instruments were term deposits held at financial Institutions of \$45,000 (2023: \$45,000).

Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices. The Group is not exposed to price risk.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group's exposure to currency risk is minimal at present as the majority of transactions are in Australian dollars.

Note 19: Segment Reporting

In accordance with Australian Accounting Standard AASB 8 Operating Segments, the Company has determined that it has one reporting segment, consistent with the manner in which the business is managed. This is the manner in which the chief operating decision maker receives information for the purpose of resource allocation and assessment of performance. The Group operates predominantly in one business and geographical segment being the research and development of biosciences in Victoria, Australia.

Note 20: Key Management Personnel Compensation

The Key Management Personnel compensation included in employee expenses are as follows:

	Share-based payments (\$)	Short-term benefits (\$)	Termination benefits (\$)	Post-employment benefits (\$)	Other Long-term benefits (\$)	Total (\$)
2024

Note 24: Events Subsequent to Reporting Date

On 14 August 2024, the Company announced on the ASX it entered into a secured loan facility agreement (Loan) which will provide early access to \$1,150,000 cash of its forecast ~\$1,500,000 FY24 R&D Tax Incentive (RDTI Rebate) expected to be received in full by November 2024.

The Loan is secured by and repayable out of the FY24 RDTI Rebate and attracts a fixed 1.33% per month interest rate. It matures on 31 December 2024, however, can be extended by agreement between the lender and Rhythm. This Loan is intended to be used in a bridging period prior to receiving the FY24 RDTI Rebate, along with the amended FY23 RDTI rebate for overseas activities.

There has been no other matters or circumstances which have arisen since 30 June 2024 that has significantly affected or may significantly affect:

- the operations, in financial years subsequent to 30 June 2024, of the consolidated entity; or
- the results of those operations; or
- the state of affairs, in financial years subsequent to 30 June 2024, of the consolidated entity.

Note 25: Commitments

The Group has inventory purchase commitments of \$nil (2023: \$265,193) for goods not yet received as at 30 June 2024. There are no capital commitments for expenditure as at 30 June 2024 (2023: \$nil).

Note 26: Contingent Assets and Liabilities

The Group has no contingent assets or liabilities as at 30 June 2024 (2023: \$nil).

Dated 30th August 2024

INDEPENDENT AUDITOR'S REPORT

To the members of Rhythm Biosciences Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Rhythm Biosciences Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How the matter was addressed in our audit
<p>Research and Development Grant Income Recognition</p> <p>Other income includes a research and development (“R&D”) tax refund and Note 1 to the annual financial report discloses the accounting policy used by the Group for the recognition and measurement of its R&D tax refund income.</p> <p>Recognition of the R&D tax refund income was considered a key audit matter due to the significance of the recorded amount and the inherent subjectivity associated with the calculation performed to determine the R&D tax refund income amount, including the assessment of eligibility criteria met in respect of regulatory requirements applicable to the R&D tax refund income.</p>	<p>Our procedures included, but were not limited to:</p> <ul style="list-style-type: none"> Assessing the Group’s accounting policy for refundable R&D tax offsets for compliance with Australian Accounting Standards. Assessing the adequacy of procedures and key internal controls surrounding the recording of income. Engaging our internal R&D tax specialist team to evaluate management’s assessment of whether the R&D expenditure claimed is eligible expenditure under the criteria of the Income Tax Assessment Act 1997 and relevant regulatory registrations obtained for the R&D expenditure activities. Vouching a sample of R&D expenditure items claimed to underlying internally and externally sourced documentary evidence, including reperforming calculations used to determine the R&D tax refund amount. Vouching the cash proceeds for the R&D tax refund income to the relevant documentary evidence such as the lodged income tax return, bank statements and the relevant income tax assessment notice. Checking the completeness and appropriateness of the disclosures within the annual financial report.

Key audit matter	How the matter was addressed in our audit
<p><i>Measurement of Share Based Payments and Loan Funded Shares</i></p> <p>A net reversal of share-based payment expenses was recognised for the financial impact of options that were granted in prior periods. In addition, share based payments were expensed during the year relating to options and loan funded shares issued during the 30 June 2024 financial year to key management personnel.</p> <p>Share-based payments are a complex accounting area, and due to this complexity and judgements used in determining the fair value of the share-based payments and the probability of vesting conditions being achieved, we consider the Group’s calculation of the share-based payment expense to be a key audit matter.</p> <p>Refer to Note 1 and Note 17 of the financial report for a description of the accounting policy and significant estimates and judgements applied to the share-based payment net reversal of expense recorded in the 2024 annual financial statements.</p>	<p>Our procedures included, but were not limited to:</p> <ul style="list-style-type: none"> • Reviewing board minutes and ASX announcements for the completeness of share-based payments and loan funded shares issued during the year. • Engaging our internal valuation expert to calculate an appropriate valuation range, including assessment of inputs used in management’s valuations, for the new options and loan funded shares issued during the year. We compared the valuation range derived to the fair values used by management to record the share based payment expenses. • Reviewing a sample of underlying agreements related to the issuance of any new share-based payments and loan funded shares in addition to assessing whether there have been any modifications in the agreements in place from prior years. • Evaluating the reasonableness of key estimates applied by management in determining the probability percentages of the various performance-based vesting conditions. • Assessing whether the recognition of the current year’s share-based payment and loan funded shares expense and net reversal of expense and corresponding reserve balance movement were materially correct based on conditions stipulated within the underlying agreements. • Checking the adequacy of the related disclosures within the annual financial report.

Other information

The directors are responsible for the other information. The other information comprises the information contained in the Directors’ report for the year ended 30 June 2024, but does not include the financial report and our auditor’s report thereon, which we obtained prior to the date of this

auditor's report, and the Chairman's report, which is expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Executive Chairman's report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the Corporations Act 2001, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 7 to 14 of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Rhythm Biosciences Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
