

Bioshares 2024 Investor Presentation

12 JULY 2024

Disclaimer

This presentation has been prepared by Rhythm Biosciences Limited (Rhythm) and is provided for general information purposes only. No party other than Rhythm has authorised or caused the issue of this document, or takes responsibility for, or makes any statements, representations or undertakings in this presentation.

RHYT BIOSCIEN

This presentation is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. Rhythm makes no warranty or representation (express or implied) as to the accuracy, reliability or completeness of the information contained in this presentation. Specifically, several matters referred to in the presentation remain under investigation and are subject to change or even elimination, depending on further research and investigation. Further, any opinions (including any forward-looking statements) expressed in this presentation are subject to change without notice. Rhythm and its directors, officers, employees, advisers and agents shall have no liability (including liability to any person by reason of negligence or negligent misstatement) for any statements, opinions, information or matters (express or implied) arising out of, contained in or derived from or for any omissions from this presentation, except liability under statute that cannot be excluded.

This presentation, including the information contained in this disclaimer, does not form part of any offer, invitation or recommendation in respect of shares, or an offer, invitation or recommendation to sell, or a solicitation of any offer to buy, shares in the United States, or in any other jurisdiction in which, or to any person to whom, such an offer would be illegal.

This presentation may include forward-looking statements. Forward-looking statements are only predictions and are subject to known and unknown risks, uncertainties and assumptions, many of which are outside the control of Rhythm. Actual values, results or events may be materially different to those expressed or implied in this presentation depending on a range of factors. Given these uncertainties, recipients are cautioned not to place reliance on forward-looking statements. No representation or warranty (express or implied) is made by Rhythm or any of its directors, officers, employees, advisers or agents that any forecasts, projections, intentions, expectations or plans set out in this presentation will be achieved.

Introduction

Rhythm Biosciences is committed to saving lives through early detection of cancers using simple and accurate diagnostic technology.

- Rhythm's initial product, ColoSTAT[®] is intended to be a simple, affordable blood test for the early detection of colorectal cancer
- Developing alternative screening solutions for specific cancers via patient friendly blood tests is our primary focus
- Significant progress has been made on establishing assay performance, securing our own antibody supply, strengthening IP and engaging with customers and partners
- Focus on rebuilding the assay and market access strategy to reflect customer feedback
- Acceleration of the current cancer assay "menu" expansion

BOARD AND MANAGEMENT

David Atkins, PhD Chief Executive Officer	Otto Buttula Non-Executive Chairman	Sue MacLeman Non-Executive Independent, Deputy Chair	Trevor Lockett, PhD Non-Executive Director	Lou Panaccio Non-Executive Director
Former CEO of Congenica (UK) & Synevo Diagnostics, Sr. Executive at Johnson & Johnson and Danaher Founder of Veridex – cancer molecular and cellular diagnostics (USA). Significant experience in fund raising and VC investing. Currently adviser and board member for several private oncology businesses in UK and EU	Extensive financial, investment, IT & biotech experience Co-Founder and CEO of IWL (ASX: IWL); Founder / former CEO of Investors Mutual Formerly a Director of Imugene (ASX:IMU), Chairman of Investorfirst, now HUB (ASX: HUB), HITIQ (ASX: HIQ) & Oncosil Medical (ASX: OSL)	30 years in Pharma, Biotech and Medtech including Amgen, BMS and Merck. Experienced Board member, former CEO of NASDAQ, ASX, & AIM entities. Currently NED at Planet Innovation, Viral Vector Manufacturing Facility, Smartways Logistics, ATSE & OMICO & member of various government & academic advisory committees.	Former Theme Leader Colorectal Cancer and Gut Health CSIRO Leader – Personalised Health Group CSIRO Inventor on seven commercially- licensed patent families	Chairman of Avita Medical (ASX: AVH) and Adherium Ltd (ASX:ADR) Non-Executive Director Sonic Healthcare (ASX: SHL) and Unison Housing Former CEO Melbourne Pathology & Monash IVF

Introducing our Clinical Advisory Board

Sally Benton

Consultant Clinical Biochemist and Clinical Lead for Clinical and Specialist Biochemistry Services at Berkshire and Surrey Pathology Services, a pathology network that serves 6 acute hospitals. Sally is also Director of the Bowel Cancer Screening South England Hub based at the Royal Surrey County Hospital, Guildford, serving a total population of about 16 million people across the South of England.

Prof Jon Emery

Herman Professor of Primary Care Cancer Research at the University of Melbourne, and the Victorian Comprehensive Cancer Centre (VCCC) Primary Care Research and Education Lead. He is a National Health and Medical Research Council (NHMRC) Leadership Fellow, and Director of the Cancer Australia Primary Care Collaborative Cancer Clinical Trials Group (PC4).

Prof Finlay Macrae

Head of Colorectal Medicine and Genetics at The Royal Melbourne Hospital, he is a lead clinician in the Familial Cancer Clinic and is engaged in research into Colorectal Cancer genetics and new therapies for Inflammatory Bowel Disease (IBD).

He trained in London with the world's leading colonoscopist at the time (St Mark's Hospital) and brought this skill to Australia and his practice.

Cancer is an increasing burden on global healthcare systems

The role of cancer diagnostics remains critical to public health

Estimated % rise in all cancers 2022 to 2050

Males and Females, Age 0-85+

Estimated number of worldwide prevalent cases in 5 years from 2022

Colorectal cancer (CRC) is treatable and often curable, yet is the second leading cause of cancer death globally

CRC is a progressive disease in which epithelial cells in the colon or rectum grow out of control²

GLOBAL BURDEN IN 2020

1.93 million new cases**~940,000** deaths¹

	RANK: MOST COMMON CANCER	ESTIMATED NEW CASES OF CRC	DEATHS FROM CRC IN 2020-21
EUROPE: EU27 ⁷	2	341,419	156,105
UNITED STATES ³	3	155,000	54,443
UNITED KINGDOM ⁴	4	52,128	21,682
AUSTRALIA ⁵	4	15,713 ⁶	5,326 ⁶

First major clinical performance evaluation

Prospective, multi-centre study to evaluate the clinical performance of the ColoSTAT[®] for the detection of CRC¹

STUDY DESIGN	PRIMARY ENDPOINT			
Blood-based assay N= 989 patients, aged 40 to <85.	The primary endpoint was to evaluate ColoSTAT [®] performance compared to gold standard, colonoscopy.			
RESULTS				
ColoSTAT [®] met the primary endpoint and showed a				

high-sensitivity blood test for CRC detection.

ColoSTAT[®] may provide an alternative test for people who cannot or will not take the FIT test.

81%

Sensitivity¹

Specificity¹

91%

CRC; colorectal cancer, FIT; faecal immunochemical test 1. He et al DOI: 10.1200/JCO.2023.41.16_suppl.3529

BIOSCIENCES **CUSTOMER & STAKEHOLDER FEEDBACK FASTER TURNAROUND/** High volume testing dependent upon automation MAINTAIN LOW COGS QUALITY Reliable supply chain from raw materials to finished kit **LOWER RISK ROUTE** Lower complexity clinical application for ColoSTAT[®] **TO MARKET ROBUST PRODUCT** Accelerate other cancer programs PIPELINE

Customer feedback has shaped our strategy

Faster turnaround time, lower cost, updated & simplified ColoSTAT[®] Kit

Creating a pragmatic, quality-first mindset

BIOSCIENCES

Initial focus on disease detection for symptomatic patients

SIZE OF STUDY/FOLLOW-UP TIME

Note: Size of circles and relative position is not quantitative, and positions are for the purpose of illustration

Platform technology expansion pipeline

Rhythm's short-term priorities for Q1

Refining our Clinical Development and Market Access plan

Assay Development

Complete development of multiplex assay

Market Definition

Clearly define and quantify triage market in selected geographies

Market Access

Confirm evidence requirements and regulatory requirements

Product Pipeline

Accelerate other cancer programs and explore partnerships

Thank You!
